for more details:

F1

F1 is a Semi-Automatic Pallet Stretch Wrapper.

The versatile solution for most common pallet wrapping needs. F1 model is a semi-automatic machine for wrapping palletized loads with stretch film.

Turntable soft start function, manual or automatic mode and top & bottom reinforcement wraps individually adjustable.

Can be equipped with mechanical/electromagnetic brake or powered prestretch carriages.

Key Features

Platform diameter: 1500 mm

Max pallet height: 2100 mm

Max loading weight: 2400 Kgs

Different sizes as option

Belt driven carriage

Film carriage with clutch (mechanical or electromagnetic - EM/M/FM) or prestretch (mechanical 30,60,90% - SM or motorized up to 200% - LP)

Safety switch under film carriage

Two forklift access point for machine easy repositioning

Pallet height photocell

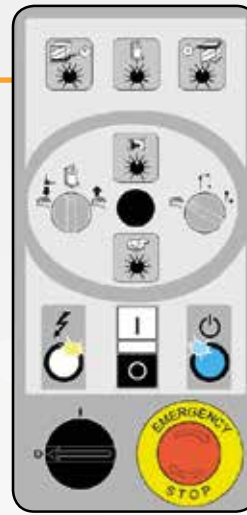

Carriage speed adjustable by inverter

Turntable speed adjustable by Inverter/ Soft Start & Fix Stop

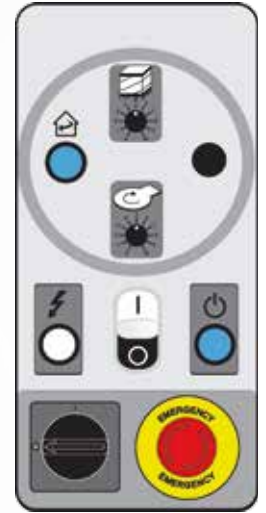

Top & bottom reinforcement wraps adjustable individually

Reclining column hinged to the base facilitates installation and possible repositioning

Turntable blocking feature to avoid movements during loading/unloading operations

Standard control panel

Dedicated control panel only for EM carriage

Optionals

Loading ramp

Turntable diameter 1500 mm - 1200 kg. max

Integrated weighing system

Burial frame

The F1 with the EM carriage is a semi-automatic machine for stretch wrapping palletized loads film.

Our entry level turntable model is equipped only with mechanical carriage with this functions:

Turntable start, up & down fix cycle and top & bottom reinforcement wraps adjustable.
