

HC VERSA

your choice in packaging

INFLATABLE CUSHIONING SYSTEM

Ripac puts the Versa in versatility with this new hybrid air cushioning system. With the option to produce a variety of cushion heights and widths on demand or at the fastest speed available on the market, the AirSpeed HC Versa is perfect for operations that package products with varying demand, size and shape.

In the other words, the HC Versa is one system that can virtually do it all - cushioning, wrapping, blocking and bracing and void fill.

- ✓ **Versatile:** Multiple film choices to maximize performance
- ✓ **Simplicity:** Easy to load, and operate with a simple start/stop operator interface
- ✓ **Speed:** On-demand performance with the fastest machine on the market
- ✓ **High Yield:** Proprietary pattern and registered perforation reduces material consumption
- ✓ **Compact Profile:** Enables easy placement and flexibility for tight work areas
- ✓ **Delivery Systems:** Compatible with wide range of ergonomic solutions
- ✓ **Compact:** Small footprint for tight spaces

HYBRID CUSHIONING FILM IS IDEAL FOR A WIDE RANGE OF PACKAGING APPLICATIONS

Cushioning

Wrapping

Blocking/Bracing

Void Fill
